

BAUSCH+STRÖBEL
Maschinenfabrik Ilshofen GmbH+Co. KG
Parkstraße 1
74532 Ilshofen

Company profile

World market leader in the pharmaceutical packaging sector

From a starting staff of four, Bausch+Ströbel has grown to an internationally operating group of companies with about 2,000 employees. Today, the special machinery manufacturer is a world market leader in pharmaceutical packaging machinery.

Bausch+Ströbel designs and develops customized and user-optimized machines and production lines for fully automatic processing of

- bottles
- vials
- ampoules
- ready-to-use syringes
- cartridges

Our scope includes equipment for

- cleaning
- depyrogenating/sterilizing
- filling liquid or powder products
- external cleaning-sealing
- inspecting
- assembling
- transporting
- labeling

The Bausch+Ströbel product line-up ranges from semiautomatic filling and closing machines for laboratory applications and galenic formulations to fully automatic production machines and complex high-speed production lines which can handle up to 60,000 containers per hour. In 2013, Wilco AG joined the Bausch+Ströbel group and has since complemented our cope by precise, fully automatic inspection systems.

The customers of Bausch+Ströbel include reputable companies from the pharmaceutical field all over the world. With our long experience and profound knowhow, we can develop optimal solutions which meet even very special customer requirements. For this purpose, our research department has state-of-the-art laboratory facilities.

Bausch+Ströbel equipment is known for its high quality. We do not offer the machinery alone, however. To ensure that our customers can fully

exploit their capacities, we offer a range of dedicated services as well.

They include systematic maintenance, spare parts management, remote services and expert training for machine operators in pharmaceutical production facilities. The Bausch+Ströbel Academy offers a broad variety of basic and advanced training modules, and covers topics such as equipment availability or overall equipment effectiveness (OEE). The modularized training can be tailored to each customer's needs.

Company management: Markus Ströbel, Thorsten Bullinger, Dr. Hagen Gehringer, Bernhard Frisch and Ralph Frank

Founding year: 1967

Staff: about 2,000 worldwide; about 1,700 at Ilshofen, Germany

Production capacity: about 400 machines/year

Export share: above 90 percent

Awards: World Market Leader Award in 2011, "Wirtschaftsmedaille" medal of the state of Baden-Württemberg in 2013, Interphex Awards in 2016 and 2017, and others.

Worldwide: Locally based - globally oriented: The development of a market-oriented, worldwide group of companies has brought Bausch+Ströbel proximity to its customers, increased market presence and faster communication between customers and our staff. More than 50 representatives and agents worldwide are serving local markets.

Bausch+Stroebel Machine Company, Inc., founded in North Branford, Connecticut (USA) in 1983

Asedo Anlagenteile, Steuerungs- und Entwicklungsbau GmbH & Co. KG, founded in Dombühl (Germany) in 1986

Bausch+Ströbel, Büchen (Germany), founded in 1992

WILCO AG: In December 2012, the purchase of WILCO AG was finalized at their headquarters in Wohlen in the Swiss canton Aargau. With this purchase, Bausch+Ströbel extended its product range by fully automatic, high-precision inspection machines for leak testing, visual inspection and spectroscopic systems.
